

Background Information

- Program Created in June 2014, between the US. Army Financial Management School and the University of South Carolina (UofSC) Darla Moore School Of Business
- The first educational program was an Executive Level Course that included Business Analytics and a Graduate Level Course with the Enterprise Resource Planning (ERP), Systems Application and Products (SAP) TERP10 Certification course
- Today, four different courses are available to Army students several times throughout the fiscal year
- UofSC educates over 350 Army students on Data Analytics and Systems every year
